## LEAD from your *Why*

We have all faced tremendous challenges that have tested our strength and will; yet, we persevere because we are driven by our dedication and passion to serve.

The *Lead From Your WHY* program is developed to increase our self-awareness as leaders and to support continued growth and development. The series will be facilitated by Kathy Barham.

Through the program's five 30-minute webinar sessions, you will explore creative leadership options, develop, personalized leadership goals, and gain skills necessary to lead in these challenging times.

Kathy is a leadership development training and coaching professional with over 30 years of corporate experience, 25 of those years serving in leadership and coaching roles who uses her knowledge and experience to work closely with her clients to design custom curricula, as well as learning solutions that lead to their desired business results while developing the individuals who are involved.
